Evil witches are everywhere. Souring your milk, corrupting your files, sailing across the moon with a cackling laugh. What can you do? What you always do – kill them and take their stuff. Here are 30 witchy monsters, Items, and Curses to spook up your game!

This expansion works with any *Munchkin* set, but if you want witches to be a bit more central in your game, shuffle it into *Munchkin Pathfinder* and let the players be Witches, too!
